In my opinion I would wind them back even further. We need to protect our youth from alcohol damage to their young brains. (let alone drug abuse) I've seen first hand what happened around Toukley/Budgewoi from alcohol abuse by young pple. These suburbs were trashed on weekends and you never read about it in the news. So what nightclubs are closing in the cross selling their \$10 beers and the odd pill or two? Society in general will be a much better place the lesser the amount of alcohol that is irresponsibly consumed.
