A long term resident of  and retired Emergency Nurse.
I have witnessed the detrimental effect late night trading has had on our beautiful town. This resulted in un precedented violence and antisocial behaviour. This has been extremely distressful to many residents.
Australia has a big problem with alcohol which needs to be addressed .
The concerns of those who work in first line emergency services and witness first hand the damage caused by excessive alcohol consumption need to be listened too and protected. Whilst I have witnessed some improvement in our town much more needs to be done. These laws must be for society in general not just for the vast profits of a few powerful people.

Regards,
