I am a 45 year old woman. I occasionally like to go out with my girlfriends into the city to have a dance and a few drinks

We were shocked the last time we went to Kings Cross to see how many places had shut down and how many places were empty.

It is sad to see the city's nightlife getting regulated out of existence and a pity to see that the actions of a few can have such a big effect on the rest of us. We haven't been into the city since as we really didn't see the point.
