Action Items

Please look after people in general . Don't give in to the Booze Crew who make their money late at night and early in the morning.

Keep the laws the same as they are now. In the long term you save billions in hospitals and associated costs.

Forget the short term profit and take a long term beneficial community view.

Do a profit and loss spread sheet now. Do another in six months. You will be in front at the end of the day and the vast majority of the community will love you for it.

Regards,

Thomas O'Brien

Police Officer
