Hello there

At the end of the day, we are being treated as kids. Do we really want to be known as the Nanny state???

Lockout laws are ridiculous – there are other ways to control inappropriate behaviour. Give back the police their laws that allow a much better ability to stop bad behaviour, and this can be 24/7 !!! The one kick issues all happened before lock out laws even start.

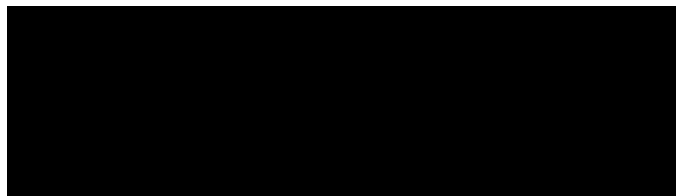

I live in Kings Cross / Darlinghurst – and all I see now are places closing down. Basically destroying the area.

Lets become a city to be proud again, not one shutting down.

thanks
