To: Liquor Law Review <liquorlawreview@justice.nsw.gov.au>;

We need to keep these alcohol laws in place. As a police officer, I have noticed a difference since the law was brought in. It would be a disaster to go backwards. DO NOT BACK OUT NOW. STICK TO YOUR DECISION... Lives have been saved and assaults have been reduced. Prior to the laws being established, my son had been seriously injured twice on two separate incidents as a result of drunken males. The drunken males were assaulting and stomping on my son's friends in a violent rage. My son, on both occasions, made an attempt to pull the drunken males away from his friends and started assaulting my son. The longer licensed premises are open, the drunker people become and the more violent they become. We need to know that WE and OUR CHILDREN are safe when they go out with the friends to have a good time. Don't be mistaken that this can't happen to your child or your grandchild.... STICK TO YOUR DECISION.

Regards,

Angelic PHARA

Police Officer
