I am a Christian Pastor and fully support my Government in the enforcement of the current alcohol-related violence laws. Well done for the 32% decrease in assault, it speaks for itself. Enough is enough!! Our family was touched last Friday night the 1st of April, when a friend was attacked due to alcohol related violence. He is in a serious condition in hospital. The breweries should pay the costs to Government for this heinous grog fuelled crimes. I am appalled when I here leaders in the city demanding that current laws be wound back. Not the sign of stable wise leadership. This must not be allowed to happen

Regards,

George Porter
