Before the lockout laws Kings Cross was a blight on our city. It was humiliating to read about the assaults and degrading behaviour by people in the area in the early hours of the morning. Even from the financial perspective, the cost to the public purse (police, hospitals, medical staff, judiciary, etc) was huge. At the same time club owners, etc were benefitting from this.

Since the lockout laws, the whole area is safer, cleaner, and more attractive.

Regards,

John Price
