Premier,

Please keep these laws in place, I am a mother of four sons in their teens and early twenties, any law that would stop needless violence on our streets is a good one and needs to be maintained, if not extended.

Prior to the laws these crimes were far too common, the devastation to the victims and their families unthinkable. I have put a lot of love into bringing up my sons and they have a world of experience in front of them, and of course I am concerned for their safety when they have a night out. Maintaining these laws would go a long way to reducing this sort of crime on our streets and keeping our kids safe when they just want to enjoy a night out with their friends. Thank you

Regards,

Carolyn Prichard
