Hello,

My name is Emrys and as a 25 year old recent University leaver, and someone who works in an industry that does not conform to a 9-5 timetable, I would like to add my voice to the plethora you have no doubt already received in relation to the removal of the lockout laws.

The lockout laws were reactionary legislation that have diminished this city's cultural and economic lifeblood; unless of course you are a stakeholder in casinos. Despite whatever Mr. Baird may subjectively believe, the laws are not working, and the violence statistics he keeps quoting like the droning imbecile he is do not take into account the drop in foot traffic in nightspots around the CBD and King's Cross largely thanks to the economic devastation it has wrought on small businesses like Hugo's Lounge and the multitude of nightclubs, cafes, and restaurants that have had to close their doors to the 'poorly thought out legislation'.

Please prove to the people of Sydney that we are not reliant on nepotistic, arrogant, greedy would-be-despots like Mike Baird for keeping us 'safe'.

Yours hesitantly,
Emrys Quin
