To: Liquor Law Review <[liquorlawreview@justice.nsw.gov.au](mailto:liquorlawreview@justice.nsw.gov.au)>;

Statistics tell the real story!

Sydney and Newcastle are now safe, vibrant cities.

Emergency workers no longer dread the nightshift because the trauma they used to experience from alcohol related violence has dropped significantly.

This not only made the work place a safer environment, it has also alleviated a lot of stress and post trauma mental issues.

To now reverse the alcohol laws would be significantly detrimental to individuals and society as a whole.

Do not be pressured by the almighty dollar!

Regards,

Michael RAY

Police Officer
