As a resident of  for the last 9 years, I have not see such a devastating impact on the soul of my neighbourhood as I have done in the last 2 years. I have also seen the affect that the lockout laws have had on a personal level with a business owner friend of mine having to close his pub because of the restrictions on his late night trading. That pub was put into foreclosure and he has now declared bankruptcy. As a resident and someone who has personally seen and felt the impact of these blanket lock out laws, i support the need for an independent review of these stupid laws. We are an international, vibrant city that is turning into an international joke. Why are the casino's exempt from these same lockout laws?
