Submission to the review of alcohol

As a resident of the Newcastle community region, I KNOW the difference the lock-out laws have made in our area. Please don't make the fatal mistake of reverting to unrestricted drinking hours due to pressure. Our State of NSW can show the rest of Australia that we can still have a good time without bringing undue misery to the community. Those who wish to revert to the unrestricted hours have a loud voice, but do not realise the enormous cost to innocent victims of alcohol unless it happens to them. PLEASE do no revert, but instead make the laws STATE WIDE.

Thank you

Regards,

Audrey Sanderson
