These lock out laws are ruining what was once a great city.

Sydney is a joke for anyone who was born and raised here. I have lived in many cities in Australia and the world and Sydney is embarrassing on a global scale.

Why would visitors keep coming here ? All there is to see is bordered up shop fronts and for lease signs.

Unless of course you'd like to go an loose all of your money because soon there will be not one but TWO casinos within walking distance from each other .

This is not about going out and getting wasted , people are losing there jobs, businesses are shutting and we are losing the culture we once had in this city

The star casino is one of the most violent and aggressive venues in the whole city. It ALWAYS has been. It's absolutely laughable that they were excluded from the lock out zones. How corrupt is the NSW government ?

The "alcohol fuelled violence" is a cultural problem , the majority of the population can go out and have a great time and not cause any trouble !!! A tiny minority can not.

There needs to be

- stricter penalties for those involved in ANY kind of these assaults
- a heavier police presence to deter anti social / violet behaviour
- 24 hour public transport - honestly the public transport in Sydney is a JOKE!

You can not shut all venues at the same time letting people flood on to the street with no way to get home and no food options open

And no take aways after 10pm ??!! As an adult I should be allowed to get a bottle of wine after I have finished work, or having a meal with friends or with my 70 year old parents !!!!

The NSW people can see right through this rubbish. In a few months developers will be in building more apartments in the affected areas! Apartments that your average Australian would never be able to afford.

But that's a whole nother story...

The lock out laws are a band aid solution and are not even tackling the real problem . Please look to Melbourne for help

Regards
