Hi there,

I would like to speak on behalf of shift workers that work weird hours. As a train guard myself that works permanent afternoons/nights your latest laws have made it near on impossible for me to have any kind of a social life. Already we are missing out on a lot of social activities on weekends or after work that most people(no doubt yourselves included) take for granted but now our small window of meeting up with others after work for a few hours has disappeared. I am an almost 50 year old woman. Not everybody who goes out late is a reckless young man in their twenties. Reckless young men get killed on public transport too, but the answer isn't to close THAT down. Why? Because other people use it too, and you can't BAN EVERYTHING because of a minority. Thank you for your time.
