My brother in law lost his business and house as a direct result of the lockout law. I lost my job. I get limited/shortened hours at my current job. As a community, Sydney has suffered. The only ones benefiting from this legislation are the wealthiest in the city - namely the casino... Why is it that we are seemingly being encouraged to go to the casino?? Problem gambling is surely more detrimental than dancing in a club...which as a 25year old person, I should have the CHOICE to do so.

I've never been in a fight, or been attacked or even felt threatened on the streets of Sydney. Don't punish me.
