To: Liquor Law Review <liquorlawreview@justice.nsw.gov.au>;

These laws are reducing alcohol consumption in public areas which has also dropped alcohol-related crime in public areas. As an nurse who works in the emergency department, it is great to see that numbers of patients presenting from alcohol-related issues has decreased. Keep up the good work. Don't give in to the publicans and alcohol companies who want to make money on the misfortune of others.

Regards,

Nathan Smith

Nurse
