Unfortunately the actions of a few impact upon the majority. Police, nurses, ambos and Drs etc are not punching bags, nor is the system able to carry both the financial and social burden of drunken violence. There has been little displacement according to media reports of the violence into areas not affect by lock out laws, keep the laws in fact consideration should be given to curtailing last trade to 12 midnight and early opening at 6am. Being able to drink 18 hrs a day 7 days a week is plenty, of course if you care to provide youre own alcohol you can drink forever.I am not ant alcohol but I am not a drunken thug who assaults, harasses and insults others. As a tax payer our \$ is better spent in the education, transport and medical systems on those deserving not treating totally avoidable drunken victims, assailants, offenders or thugs.

Regards,
