I do not believe that we need to be able to drink all night!

To do so until the early hours of the morning should be sufficient for all.

If we want to continue past that time we can go home or to a private place to carry on drinking.

Given that the statistics clearly appear to show a reduction in deaths and major disturbances since their introduction, plus the fact that I have heard numerous health professionals and law enforcement officers agree that this is indeed the case, I submit that the new regulations should indeed be put firmly in place.

after all, it is only the pub and club owners in the main who oppose these regulations. It seems to me to be rather like the arguments put forward in the past for 'the benefits of smoking'!

Sincerely,

Malcolm Thornton
