Lock outs

Dear sir/madam,

I am in favour of lockouts being ended - they do not address the issues of people being assaulted in the early evening, they're punitive, pointless and have caused the closure of over 40 businesses and loss of livelihoods. There are so many other options that could have been considered and tried, as have been used in many other major cities around the world very successfully (Amsterdam and Manchester spring to mind).

I would also like an answer as to why the casino's were not included in this and why James Packers casino's are the only places in the entire country where people are allowed to smoke inside - are the bar staff there immune to cancer caused by secondary smoke?? Mike Baird need to be made accountable because as far as I can see this is highly suspect!!

Regards,

Rona Torrance
