Lockout laws are ridiculous and killing Sydney. It's had a huge negative effect on businesses especially small ones, our night life and I'm guessing tourism soon, who would want to come to Sydney when Melbourne is still fair game ? How about instead of punishing Sydney like they're bad children you take other appropriate approaches. More transport options, more police ON THE STREETS not just driving around in their cars doing piss all. You're killing Sydney!

Regards, Jacqueline
