Dear Sir/Madam,

There are considerable alternative to the lock out laws that originally should have been sources as opposed to the restrictions currently in place. Many of my close international friends see Sydney as a dull nanny state whom now prefer to travel elsewhere besides this once great city of ours.

It has also become obvious that both Star and Crown have influence over the government by means of avoiding these restrictions. As a former employee of star the violence and anti social behaviour has always been high.

REMOVE THESE UNJUST LAWS WHICH ATTACK OIR FREEDOMS SHUNNING THE YOUTH !

Regards  
A. Tyler
