Hi,

I honestly do not have much to say. I do believe you have all information needed, all emails with all type of words, bad words, excuses.

So, I will not waste my time writing a 2000 word essay.

i just wanted to say that this lockout law is one of the most weird and stupid decisions ever made. The reason for it is to keep the streets safer and less violence on the street, however, I was not physically but I was threatened on my complex. A private complex in Waterloo. Guess who was threatening me? Drunk people... at... 11pm! So, tell me... what difference did it make? It was 1 in 10000 right?

Same as what happened with the boys who unfortunately passed away. Cars have never been stopped from anything and they kill people all the time... everyday... does not matter how heavy the laws are... accidents will always happen.

So, why does Sydney need to look like a stupid spoiled kid to the World? Safety does not mean getting rid of all clubs, life night.

Seriously.... stop protecting the riches (Casinos).... I particularly HATE that place.You took all my freedom to have fun.

Thanks

Juan
