The lockouts have effected myself as i played at various locations around sydney and also worked in kings cross which has now cause many clubs including the one i was working at down. Music is my life and my passion im a music producer and now dont have anywhere left too showcase my music. Lockouts need too go as many people have lost jobs and your taking our freedom away. We dont want casinos we want too be able too go out and dance. We need a review, there has too be a different way too keep people safe. Why not put a higher penalty for 1 hit attacks this will take the people off the street or stop it happening. You need too review

No too lockouts

Daniel
