Dear NSW Govt,

I am tired of your relentless efforts to turn our beautiful state I to a nanny state.

Now you have nailed cigarettes you are turning to liquor.

Be honest about it, don't pretend it's for our own good. The level of alcohol fuelled violence in our city is unacceptable, but it is the minority of people that indulge in it, the vast majority of us behave like adults and expect to be treated like them.

I am so bored with you all.
