Dear Sir/Madam,

As a resident of Sydney I have been following the progression of the Lockout laws and their effects with eagerness.

Although you'd be hard pressed to find me in the Sydney Lockout Zones I simply do not agree with the approach that the State Government has taken in curbing alcohol violence. The fact that multiple business's have been destroyed and essentially peoples livelihoods without the full spectrum of alternatives being assessed is not acceptable. Further compounding to this, the fact that the Star City Casino and Barangaroo Casino are exempt from these laws is simply an abuse of power that the public is fully aware of.

Please take the review of these laws with diligence and empathy.

Regards,  
Sam
