There are two options as far as I can see.

1. Come up with a well thought out solution to alcohol related violence that doesn't involve lock-out laws. Transport, more police, a night mayor, education etc. I don't need to go into the alternatives. Conversely, if you don't want to do this. There is only one other thing to do.
2. Recommend extending the laws to include Star and Barangaroo.

If common sense doesn't prevail... maybe the threat of losing \$\$\$ will.
