After serving 20 years in the front line this needs to stay in place and if anything be extended. Lack of RSA by licensee's has played a huge role in getting us to where we are today. If you don't think this is a problem then come and spend a night in a busy Charge room with drug or alcohol affected people. Spend hours of your shift being abused, spat at, threatened, whilst people heatbutt doors, injure themselves and try and injure you. They tie up huge amount of ambulance service time and resources, often at the expense of other members of the community who genuinely need assistance and who have not inflicted it on themselves.
