Do the objects as set out in section 2 of the Act remain valid? Yes

Q2: Do you agree with the proposed NSW model on page 10 of the discussion paper? Yes

Q3: Is there another approach that might be more suitable for regulating community gaming and lottery activities in NSW?

Not that I am aware of.

Q4: Do the requirements of the proposed model adequately address the risk of harm to the community that may arise from community lotteries and trade promotions? Yes

Q5: Without reducing the integrity of the regulatory measures, what changes could be made to the make the application process easier?

I feel that the proposed changes are satisfactory.

Q6: How can Government further assist organisations and businesses conducting lottery activities and trade promotions to meet their regulatory obligations?

By providing easily accessible FAQs & adequately trained staff who can answer questions.

Q7: In section 8 of the discussion paper, it identifies that the Act does not provide for a civil penalty regime for breaches of conduct of lottery activities. Should a civil penalty regime be considered? No

Q8: Are there any other matters that should be considered in this review of the Act and regulations?

No
